Ben Rodefer— Our Representative... for a Change

We Support Ben...

“Ben will bring new energy and ideas to Santa Fe. He’ll join me in investing more in education and health care and support renewable energy to create jobs.”

—Governor Bill Richardson

“Ben will fight for health care for all, renewable energy development and good, high paying jobs.”

—U.S. Senator Jeff Bingaman

“Ben grew up on the Westside and has a deep understanding of the issues here. He has shown that he is a hard worker who will represent the interests of the people and the community first.”

—Congressman Tom Udall

“Raised on the Westside and now bringing up his own family there, Ben cares deeply for the community.

He will stand up on the tough issues New Mexico faces.”

—Lt. Governor Diane Denish

Rodefer— An Agenda for Change

Renewable Energy and Jobs

New Mexico is ideally situated to lead in developing renewable energy. We can create thousands of new high wage jobs. I will vigorously advocate a move away from fossil fuels and toward renewable energy, including wind, solar, and biomass.

Education

We must teach our children for life, not for tests. The “No Child Left Behind Act” has left most children behind. We must invest our tax dollars in improved classroom opportunities here in New Mexico not on the administration of a failed law mandated by Washington, D.C.

Health Care

Access and affordability remain the central goals of a health care policy. It’s time we actually sit down and find a way to offer EVERY New Mexican access to affordable health care. No exceptions.

The Environment

The first step here is to reduce our dependence on oil, coal and gas. That means a move to renewable energy, green building, greater fuel efficiency and stricter emissions standards. This is exactly what I’ll fight for.
